PREFACE	vii	<i>James D. Sullivan</i>
INTRODUCTION	ix	<i>Suleyman Tufekci</i>
KEYNOTE ADDRESS	xi	<i>Robert C. Sheets</i>
PLENARY ADDRESSES	xiii	
PANEL DISCUSSIONS	xv	
GEOGRAPHIC INFORMATION SYSTEMS IN EMERGENCY MANAGEMENT		
Using GIS for Hazards Vulnerability Analysis	3	<i>Glenn O. Johnson Larry A. Reynolds</i>
Improving Emergency Planning, Preparedness and Response with GIS	9	<i>James W. Morentz David A. Griffith</i>
Using a GIS Platform for Design and Analysis of Emergency Response Operations	14	<i>Kostas Zografos Christos Douligeris Panagiotis Tsoumpas</i>
COMMUNICATION SYSTEMS IN EMERGENCY MANAGEMENT		
Advances in Mine Emergency Communications	23	<i>Jeff Kravitz John Kovac Wayne Duerr</i>
Using Low-Earth-Orbit Satellites to Provide Early-Warning and Disaster-Assessment Messaging for Emergency Management	27	<i>Peter C. Griffith</i>
MMS: An Electronic Communication System for Emergency Management Organizations	34	<i>Henning Boje Andersen Henrik Garde Verner Andersen</i>
STATISTICS OF DISASTERS		
Comparative Statistical Analyses of Solid Waste Quantities and Structural Damage by Hurricane Andrew	43	<i>Berrin Tansel Mike Whelan Sergio Barrera Grace Marin</i>
Magnitude Analysis Using Bradford Disaster Scale	48	<i>A. Z. Keller A. F. Al-Madhari</i>
Disaster Statistics: Revisiting the Fire Problem in the United States	57	<i>James D. Sullivan</i>

MANAGEMENT ISSUES IN EMERGENCIES

- A Missing Component in Your Emergency Management Plans:
The Critical Incident Stress Factor 65 *Kathleen M. Kowalski*
- Responding to Disaster During Conflict: Need for Changes
in Disaster Management Techniques 71 *Charles Kelly*
- The Notion of Interorganizational Networks in the
Management of Two Technological Disasters in Quebec 78 *Marie-Christine Therrien*

RISK MANAGEMENT

- Selecting the Minimum Risk Route in the Transportation
of Hazardous Materials 85 *James E. Barnes*
- MONTY: A Monte Carlo Method for Quantitative
Risk Assessment 91 *Stephen Ramsay
Matthew Hilbert*
- Risk Management of Complex Technological Systems:
Towards a Socio-Engineering Approach 97 *Ab van Poortvliet
Jos A. Rijpma
Giampiero E. G. Beroggi
John A. A. M. Stoop
Wil A. H. Thissen*

ASPECTS OF EMERGENCY MANAGEMENT IN NORWAY

- Air Pollution Monitoring for On-Line Warning and Alarm 107 *Bjarne Sivertsen*
- Integrated User Interface for MEM Decision Support 113 *Jon Kvaalem
Egil Stokke*
- The Use of Risk Analysis in Contingency Planning 120 *Jan F. Wright
K. Harald Drager*

ADVANCED TECHNOLOGY FOR EMERGENCY MANAGEMENT

- U.S. Bureau of Mines Technology Applicable to Disaster
Response, Urban Search and Rescue 129 *J. G. Kovac
H. Dobroski
D. Litton*
- All Channel Alert - Message Distribution System 136 *Patricia Lok
P. Eng*
- Simulation of Positive Pressure Ventilation (PPV)
for Fire Fighter Training 141 *P. S. Ziesler
F. S. Gunnerson
S. K. Williams*

TECHNOLOGICAL DISASTERS

- ISEM — An Information System for Emergency Management 149
Stefan Jakobsson
Olli Ventä
Perttu Heino
- A General Environment Information System for Decision Support During Major Emergencies 154
Ole Gunnar Houmb
Ulf Roar Aakenes
- Response and Remedial Actions for a Large Area Affected by a Road Transportation Incident Involving Phenol 161
Edson Haddad
Helvio Aventurato
Ricardo Rodrigues Serpa
Márcio Santos Silva Araujo
- A Conceptual Role for Modern Information Systems in Managing Emergencies in Electrical Power Networks 167
M. Serry Taha

RESEARCH AND APPLICATIONS

- The All-Hazard Situation Assessment Prototype 175
Adrian Linz
Paul Bryant
- Planetary Data Distribution System 180
David A. Rosenthal
James L. Rieger
- Automated Emergency Notification Systems and the Dissemination of Emergency Preparedness Information 186
Richard C. Rich
W. David Conn

RECENT RESEARCH IN EMERGENCY MANAGEMENT

- Simulated Images for Emergency Management Training 197
Timothy J. Moore
Michael F. Vetter
Melanie S. Ziegler
- Environmental Equity and Industrial Chemical Accidents 205
Theodore S. Glickman
Dominic Golding
Robert Hersh
- The Role of Virtual Reality Technology in Emergency Management 212
Giampiero E. G. Beroggi
Laurie Waisel
William A. Wallace

NATIONAL LABORATORY EFFORTS IN EMERGENCY MANAGEMENT

- GIS for Safety of Foreign Nuclear Facilities 221
Len Malczynski

CONTENTS

author(s)

An Automated Shell for Management of Parametric Dispersion/Deposition Modeling

226

*R. A. Paddock
M. J. G. Absil
J. P. Peerenboom
D. E. Newsom
M. J. North
R. J. Coskey, Jr.*

An Integrated Approach to Technological Risk Analysis and Protective Action Decision Making

232

*Phyllis G. Thompson
William F. Clevenger
Emily D. Copenhaver
Cynthia J. Coomer*

New Tools for Emergency Response and Management: Advanced R&D Through Technology Transfer from our Federal Laboratories

238

Robert J. Crowley

EARTHQUAKES

Expert Tsunami Database for the Pacific Region

247

*Viacheslav K. Gusiakov
Andrei G. Marchuk
Ann V. Osipova*

Reduction of Earthquake Risk in the United States: Bridging the Gap Between Research and Practice

253

Walter W. Hays

Estimating the Demand for Sheltering and Feeding in Future Earthquakes Affecting the San Francisco Bay Region

261

*John R. Harrald
Sana Al-Hajj
Babak Fouladi*

NUCLEAR EMERGENCIES

ETH — RISK: A Pilot Knowledge and Decision Support System for Nuclear Power Accidents Emergency Management

269

*Adrian V. Gheorghie
Dan Vamanu*

A Databased Decision Support System for Norwegian Nuclear Emergency Preparedness

275

*Ole Harbitz
Steinar Backe*

Development of the Emergency Response Support System in Japan

281

*Mamoru Akiyama
Yoetsu Takahashi
Masaoki Komata
Hiroyuki Ban*

GIS Application for Civil Protection and Rescue in the Case of a Nuclear Power Plant Event in Krsko, Slovenia

287

*Primoz Marolt
Milica Stokar
Miran Zajc*

STANDARDS FOR EMERGENCY MANAGEMENT SYSTEMS

- Integration of Emergency Management Information Systems:
Towards a Common Reference Model 295 *Yaron Shavit
Valerie Lavigne
Marc Firmignac*
- Information Integration for Emergency Management
and Engineering 303 *Ross T. Newkirk*
- Automated Emergency Management:
A Proposal for a Standardized System 309 *Steven J. Jensen*

THE FUTURE OF EMERGENCY MANAGEMENT

- The Intelligent City and Emergency Management in the
21st Century 317 *Christian E. Stalberg
Indu Singh*
- URBISTICS - Reduction of Urban Pollution and
Forest Fire Fighting and Surveillance 321 *J. C. Hadorn
B. Saugy
B. G. Dürr*
- Key Considerations for Emergency Response
Computer Systems in the 1990s 327 *Frank W. Koleszar
Paul Riegerink*

NATURAL HAZARDS AND EMERGENCY MANAGEMENT

- Decision Support System in Various Emergency Cases 335 *Eugene D. Vyazilov
Alexander A. Bashlykov*
- Spatial Knowledge Base for Natural Hazard Protection:
The ARSEN Project 339 *Laurent Buisson
Vincent Cligniez*
- Forest Fire Danger Assessment: Combination of Methods
for Efficient Decision Making 344 *Jean-Luc Wybo
Vassiliki Gouma
Franck Guarniéri
Bruno Richard*

SEVERE WEATHER

- BRMS: Monitoring Basin Rainfall and Potential Flooding 353 *Chandran Subramaniam
Stephan Kerpedjiev*
- Creeping Crises: Developing the Technology of Coastal
Environmental Management 359 *Alan M. G. Jarman
Alexander Kouzmin*
- A Systems Approach to the Management of
Cyclone Disasters in India 365 *Sankaran Ramani*
