WELCOME ADDRESS

My warmest greetings to The International Emergency Management Society (TIEMS) as it hold the 26th annual conference and all the participants of this conference. On behalf of the local organizing committee, TIEMS Korea Chapter jointly with the Korean Society of Disaster & Security (KSDS), it gives us the greatest honor and pleasure to invite you to attend TIEMS 2019 Annual Conference to be held in Goyang, South Korea at the KINTEX from November 12-14, 2019.

My great appreciations goes to K. Harald Drager of the TIMES President who attend this meaningful conference although he had recent surgery. Also, I would like to thank to Gye-Jo Kim, Vice minister, Ministry of the Interior and Safety, and Sarah Wade-Apicella, UN Office of Disaster Risk Reduction to attend at the conference for the congratulatory remarks.

As we all know, Korea recently experience Typhoon 'Tapha' and still is responding to 'African swine fever'. Under the circumstances, the conference gives opportunities to discuss on-going issues and find various solutions from the experts from all over the world. The local organizing committee is very excited to be hosting this great conference on 'Toward the Bright Future of Safety.' We hope to follow the successful footsteps of the TIEMS conferences in Kiev, Ukraine in 2017 and Manila, Philippines in 2018.

We are planning an excellent spectrum of topics ranging from disaster risk reduction, climate change, natural disaster analysis, Technology for first responders, TQC certification, technical sessions, World Bank study to Korean sessions to present on-going issues. In an interconnected and interdependent world, coordination and collaboration between cities, provincial, national, international agencies and non-governmental organizations have become critical to the promotion of disaster management, disaster risk reduction and climate change mitigation.

This conference will explore best practices and emerging technologies, to facilitate the coordination of valuable resources and urban planning strategies to build resilient communities. There will be about 100 papers by the experts from 16 countries for you to present at this conference. Presentations from International and Korean experts will provide valuable insights and the interactive workshops will create an exceptional opportunity to discuss national and international perspectives.

The members of the local organizing committee in Goyang are very proud and privileged to be hosting the 2019 TIEMS Annual Conference and look forward to welcoming you to our country. Please you may network with your colleagues in what we hope to be a fabulous conference.

Sincerely

Ji-Hyeob Ryu, President, KSDS, Hanlyo Univ. TIEMS Korea Chapter

Welcome to TIEMS 26th and 2019 Annual Conference in Goyang, Korea from TIEMS President

In a time of increasing number and severity of disasters, global cooperation and coordination are more vital than ever before. By working together and sharing of experiences and exchange of views among the experts of different countries we can learn from each other to develop better methods and systems and advocate for better policies in emergency and disaster management, to be standardized and implemented all over the world. TIEMS conferences and workshops worldwide are such platforms where all stakeholders can meet and exchange experiences and views and focus on different global and local important topics and issues in emergency and crisis management. TIEMS 2019 Annual Conference in Goyang in Korea is TIEMS 26th Anniversary, and since I have been with the organization since its establishment in Washington DC. in 1993, it is with great pleasure to recognize that TIEMS has grown to a worldwide organization and is now a "mature" and recognized worldwide organization. The 2019 Annual conference is focusing on local and international important issues in emergency management and crisis response. This should form a good meeting place between the locals and international experts, and give all the opportunity to learn from each other and exchange experiences and find better solutions, which can improve local and international preparedness for disastrous events, and build more resilient societies worldwide.

TIEMS local organizing committee in Korea is the host of this conference, and the members of the committee have done an excellent job for preparing the conference, and I like to thank them all for the commitment and dedication to make an excellent conference. This year's TIEMS conference is hosted by TIEMS Korea Chapter jointly with Korean Society of Disaster and Security. Both international and local presentations of high quality form up a comprehensive program comprising 4 workshops and 50 oral and poster presentations, and the event is very international with contributions of speakers from 16 countries/territories. A guided tour to **Songpa Safety Experience Education Center** (*Public institution for safety education using experience, practice, multimedia, VR*) and **Lotte Tower** (*Safety Control Center*). Lotte Tower is the newly constructed modern building which is the highest in Korea and the 5th highest in the world (555m, 123 floor). This conference program will certainly make the 4 days TIEMS 2019 annual conference in Goyang, Korea to a memorable event.

The papers will be included in TIEMS 2019 Annual Conference Proceedings, and some full papers will be peer reviewed and published in an international recognized journal. Many thanks go to Dr. Meen Chhetri, Chair of TIEMS Paper Review Committee, for reviewing all papers together with Dr. Thomas Robertson, and giving good advice to the authors, seeing to it that all papers are of high quality. Many thanks also go to Dr. Snjezana Knezic for assisting in paper review and putting together the conference proceedings. Also great thanks to the conference program committee, local organizing committee and the volunteers, as well as welcome and keynote speakers. A special thanks goes to Dr D. K. Yoon, who has been appointed the Korean host, and whom I have mostly been communicating with in developing the TIEMS 2019 annual conference program.

We have also 4 company sponsors for the 2019 annual conference, which with their generous sponsorship has made this conference possible. It has been great to work with such a professional and dedicated team of professionals. I welcome all participants to TIEMS 2019 Annual Conference in Goyang, Korea, 12 - 15 November 2019.

Conference Chair

Kåre Harald DRAGER, Professor, President of The International Emergency Management Society TIEMS (Norway)

Conference Co-chair

Soon-Joo Wang, Professor, Medical Doctor, Hallym University Medical Center (South Korea)

International Program Committee

- D.K. (Dong Keun) Yoon, Associate Professor, Yonsei University, Department of Urban Planning and Engineering (South Korea)
- Guosheng QU, Professor and Director of S&T, National Earthquake Response Support Service (NERSS), Ministry of Emergency Management of P. R. China, and Vice President of TIEMS, and Expert of UNOCHA INSARAG (China)
- Andre SAMBERG, Professor of Practice, Head of TIEMS Mission to Ukraine (Finland)
- Thomas ROBERTSON, TIEMS Regional Director for North America
- Jaroslav PEJCOCH, Chairman of the Board of T-Soft a.s. (Czech Republic)
- Sandro BOLOGNA, TIEMS International Program Committee Chair, Past President of the Italian Association of Critical Infrastructure Experts AIIC (Italy)
- Meen Bahadur Poudyal CHHETRI, President of Nepal Center for Disaster Management and Chair of TIEMS Paper Review Committee (Nepal)
- **Jean-Paul MONET**, Lieutenant-colonel, Head of Fire District, Chief of Division of Bouches-du-Rhône Fire Brigade (France)
- **Snjezana KNEZIC**, Professor, University of Split, Faculty of Civil Engineering, Architecture and Geodesy (Croatia)
- Young Jai LEE, Professor, Dongguk University, and Principle Investigator of Global DRR Technology Platform (South Korea)
- George MARKOWSKY, Professor, Missouri University of Science and Technology, Chair of TIEMS Academy (USA)

Local Organizing Committee

- Ji-Hyeob Ryu, Professor, President of Hanlyo University, President of Korean Society of Disaster and Security
- Soon-Joo Wang, Professor, Medical Doctor, Hallym University Medical Center, Chairman of Local Organizing Committee of Korean Society of Disaster and Security
- **Gwonhyun Ko**, Professor, Dongyang University, Secretary General of Korean Society of Disaster and Security
- **Dong-Heon Kim**, Ph.D. President of Disaster Safety Institute, Scientific Program Committee of Korean Society of Disaster and Security
- Chang-Sam Jeong, Professor, Induk University, Department of Civil & Environmental Engineering, Scientific Program Committee of Korean Society of Disaster and Security
- Kye-Won Jun, Professor, Kangwon National University, General Management/Support Committee of Korean Society of Disaster and Security
- Ho-Jin Lee, Professor, Chungbuk National University, General Management/Support Committee of Korean Society of Disaster and Security
- Moon-Se Lee, Ph.D. National Forestry Cooperative Federation, Finance/Treas-ury Committee of Korean Society of Disaster and Security
- Tae-Shik Lee, Ph.D. External Cooperation/Public Relation Committee of Korean Society of Disaster and Security
- D.K. (Dong Keun) Yoon, Associate Professor, Yonsei University, Department of Urban Planning and Engineering, International Committee Chair of Korean Society of Disaster and Security
- **Seunghee Park**, Ph.D. Associate Professor, Sungkyunkwan University, School of Civil, Architectural Engineering & Landscape Architecture, Scientific Program Committee Member of Korean Society of Disaster and Security
