

Citizens and cities facing new hazards and threats

30th November to 4th December 2020

OPENING and WELCOME

K. Harald Dräger

TIEMS is a global forum for education, training, certification, and policy for emergency and disaster management. We do not respond to emergencies: We ensure that others are ready to respond. This is important internationally because some parts of the world otherwise have limited support for preparation.

TIEMS RTD Activity

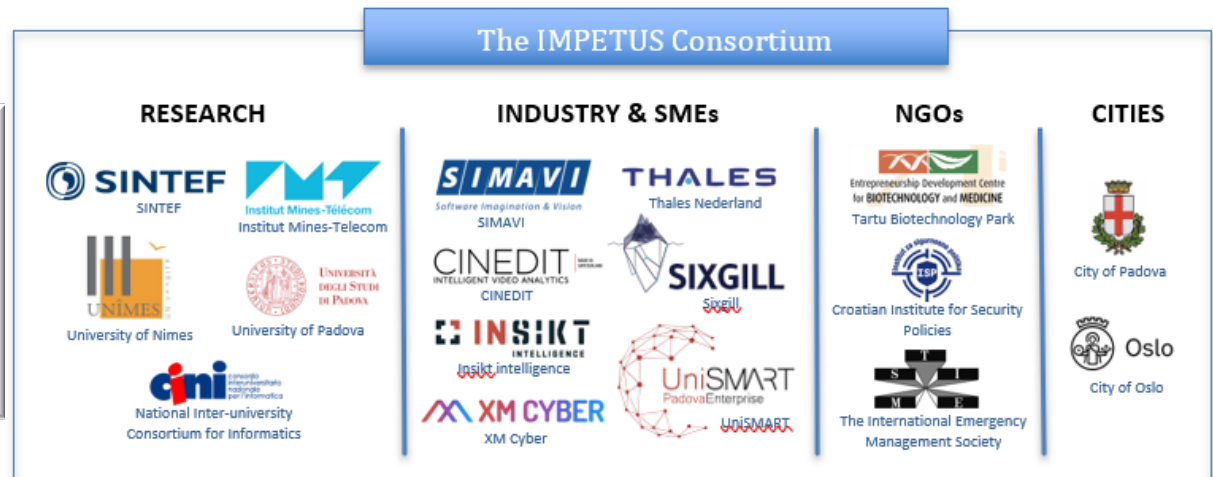

TIEMS,
Focus on
Cultural Differences to
be Understood and
Included in the Society's
Events, Education and
Research Programs

Intelligent Management of Processes, Ethics and Technology for Urban Safety

IMPETUS will provide city authorities with new means to address security issues in public spaces, and so help protect citizens. Using data gathered from multiple sources, it will facilitate detection of threats and help human operators dealing with threats to make better informed decisions.

This project receives funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 883286.
